- Autonomic Nervous System
- Physical & Mental Stress
- Chronic Fatigue & Electrocardiac Stability
- Overall Cardiovascular Health
- Aging of Blood Vessels & Circulation
- Elasticity of Arterial & Peripheral Vessels

Features:

- CPT Codes 95921, 95922, & 93922
- Reimbursable every 4 months
- Quick 1-Minute Evaluation
- 2-Page Printed Summary
- Digital Patient History

Description:

Designed for Practitioners, the AVACEN CSS provides an opportunity to address cardiovascular and stress issues before they become potentially critical. AVACEN CSS measures Heart Rate Variability through Accelerated Plethysmography to analyze overall Cardiovascular and Autonomic Nervous System function. Through repetitive screenings and treatments, the AVACEN CSS can monitor and track a patient's cardiovascular and autonomic nervous system, and overall health status.

Advantages:

- Easy to use & noninvasive
- 1, 3, & 5-minute HRV Analysis
- HRV & APG Analysis Technology
- Evaluation of basic health risks
- Detects most cardiovascular diseases
- Supported by more than 200 clinical papers

Includes:

- AVACEN CSS Processor*
- HP Laptop*
- Printer*
- Carrying Bag
- PPG Sensor*

Warranty/Price:

- *1-Year Warranty and 5-Year Warranty available
